

Blood Pressure Cuffs

Non-Invasive

TGA: 317024

Advantages:

- The Transparent Bladder and Air Hose enables for clear observation of neonatal skin changes, allowing real-time adjustment and effective clinical reference.
- Reduced risk of newborn infections by eliminating the potential of reusable cuffs carrying pathogens.
- Soft and comfortable TPU cuff material is gentle on delicate Neonatal skin.
- Colour coded for quick size selection and available with a variety of connectors to suit many monitor brands.
- Latex Free and DEHP / Phthalate free.

A26 barbed to male luer slip type connector.
Compatible with: Critikon, Datex and Welch Allyn 5082-176
