

# Hydrophobic Filter

## Intended For Use:

The hydrophobic filter is an in line filter to protect monitoring devices from moisture and bacteria entering the device.

## Specifications:

Item	Spec
<b>Material</b>	Membrane: Hydrophobic and Haemophobic PVDF Housing: PVC and Colorite azure Range Resistant DEHP-free
<b>Size</b>	23.4mm
<b>Filtration Efficiency</b>	BFE 99.999%
	VFE 99.999%
<b>Filtration Ability</b>	0,27 $\mu$ m
<b>Connector</b>	One part is 6:100 Ruhr male connector and the other port is 6:100 Ruhr female connector.

- Single patient use material to reduce possible cross contamination.
- DEHP and LATEX FREE

**Part Number: PH53909903L (Box 50)**

DEHP-free
